

Frank Lloyd Wright designed more than 1,000 buildings, homes, bridges, and other structures in his lifetime and nearly 500 of his designs were built. He often found inspiration in the natural world. His big ideas continue to inspire people to create buildings and designs that push the limits of what we think is possible.

Use your imagination and design a building that combines structure and originality.

Edgar L. Obma, *Frank Lloyd Wright*, not dated, photograph.
13 7/8 in. x 11 in.

Activity: Architecture Connections: Starchitects Collage

Materials:

- Magazines, Newspapers, Print Ads
- Piece of Paper
- Glue Stick
- Drawing Materials

Directions:

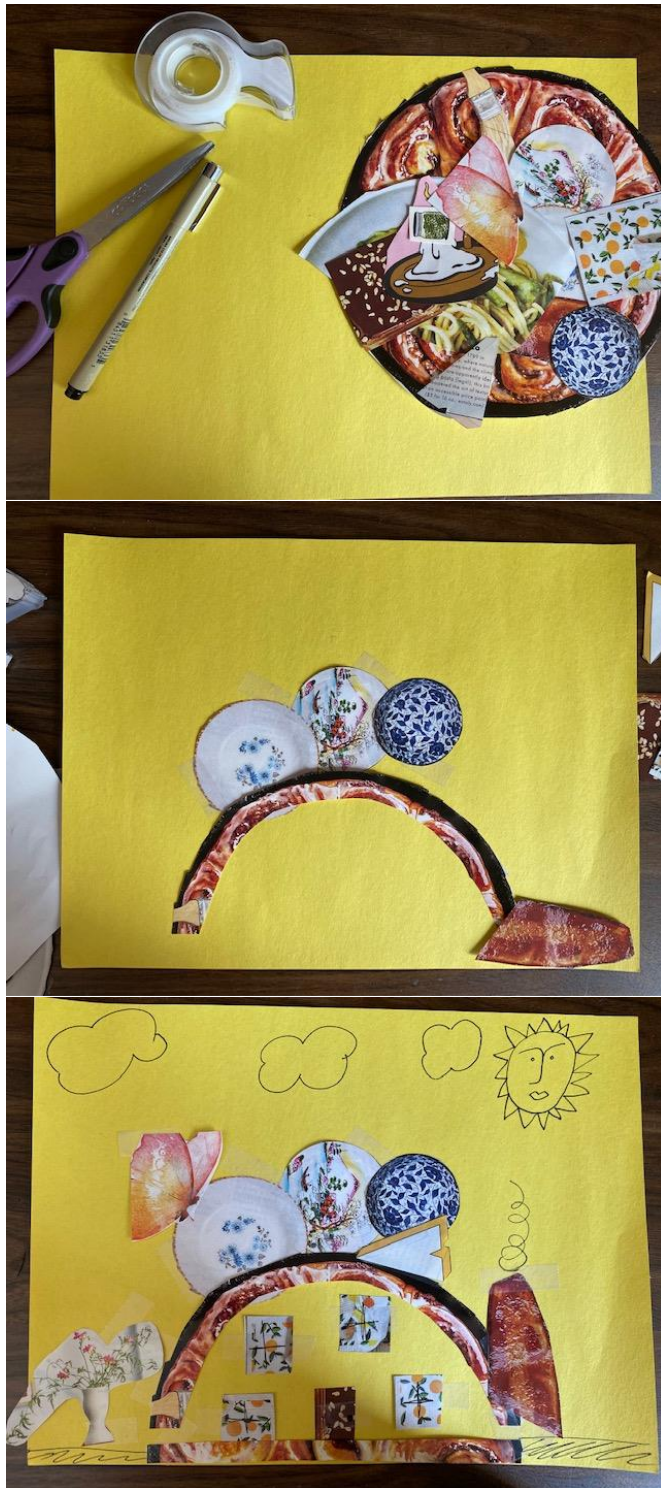

- Look through your materials and cut out shapes, objects, colors that you find exciting and inspire you.
- Use your collected collage pieces to start and map out your building.
 - What kind of building are you trying to make? A home, a skyscraper, a museum.
- Start gluing down your pieces.
- Finish off your design by adding small details with a marker, don't forget to sign it!

Tips:

- Think about different kinds of shapes you want to use and how your building will look when you step back from it!
- Have fun! This building can be whatever you dream it to be.
- Buildings require support, how will all the different parts come together?
